BARTH PAVILION

A pavilion perched on concrete patio nestled around grape vines to house guests and entertain.

Its expansive custom and locally-built mahogany windows capture the beauty of the surrounding vines and almond orchard. Windows lift the floating Butterfly roof that peak out of vines from a far.

The floor layouts are designed to provide upmost entertaining capability where guests can meander inside and out through out the house. Lighting fixtures are hidden in between joist rafters so they are discreet and illuminates the house like a lantern in the night.

Meehyun Kurtzman AIA LEED AP
Broker CA1839706

"We get non-stop request from friends and family to entertain in this house...."
-Leslie Barth
